Taimoor Tariq

Full Stack Developer

👤 Profile

Currently a student at Carleton University, I have been creating Web Applications since I was in High School. I have created many different kinds of programs. I have a skill of implementing what I have in my mind into a working application. I have great teamwork and leadership skills which I believe would help me a lot when settling into new work environments.

💼 Employment History

Tim Hortons, Ottawa, Ontario

August 2021 — Present

Taking and serving orders both at the store front and drive-thru.

Lead Developer at Ontario Post Secondary Esports, Ottawa, Ontario

September 2020 — Present

Developed an automated system to host and record the tournament games. I currently look after the system and make sure everything goes smoothly or if any additional features are required to be implemented.

IT manager at Wichita Wolves, From Home

October 2019 — October 2021

Developed a website and a discord bot (web application) for the Wichita Wolves, an Esports Organization based in the city of Wichita, Kansas. I joined the organization in October 2019 and handled all their Technology related matters.
